Stop Ice Anti-freeze Maintenance

Use Stop Ice cable in conjunction with Linus thermal insulating tape to keep pipes, tanks, basins, valves and taps, meters etc from freezing.

Benefits:

- Easy and quick to install
- No need for any external temperature control system, thanks to its built-in thermostat
- Low energy consumption

Please Note: Stop Ice cable can be spiraled around the pipe, but not overlapped.

Slimline Tubular Heaters

The Levanté slimline heater is a major innovation in low-cost, energy efficient heating with a patented built-in thermostat, keeping energy usage to a minimum.

Features:

- Adjustable thermostat
- Neon indicator
- Supplied with 1.5m push-fit cable, plug and brackets for either wall mounted or floor standing operation
- Manufactured in seamless tube with easy-clean, white enamel finish
- CE approved and compliant to BS EN 60335/1:2002

Standard Tubular Heaters

Intelligent heating with minimal energy usage - the Levanté Tube Heater is one of the most energy efficient ways of providing low cost, ambient heating and frost protection, whatever the conditions.

Features:

- Low cost operation
- Using around 25% less electricity than other tube heaters
- Easy set-up
- Ready-wired to run on standard 230V mains power, supplied with 1m cable and wall brackets (Plug not included).
- Manufactured in seamless tube with easy-clean, white enamel finish
- CE approved and compliant to BS EN 60335/1:2002

Air Warming

Levante's reputation is established on providing an extensive range of heating products, offering our customers a wide choice of solutions whatever their budget. From one of the largest and most diverse ranges of wall mount panel heaters including energy efficient new generation oil based systems, dwarf wall options, digital ranges and convector heaters, to an extensive offering of underfloor heating solutions including cable, mat and foil options.

Levante also boast the largest range of electric or water based towel rails available from a single UK source.

During some of the harshest winters on record recently Levante have also invested in a range of frost protection products, from external pipe protection to external underground heating for walk ways and drive ways.

Whatever your heating requirements, Levante have a solution...

Unit 1, Railway Court, Ten Pound Walk,  
Doncaster, South Yorkshire DN4 5HX.

# Oil Filled Radiators

Stylish, mobile and convenient, giving warmth when and where it's needed. Incorporating a mechanical 24 hour timer and filled with environmentally friendly oil. c/w cable and plug.

- Features:**
- Filled with environmentally friendly conducting oil
  - Thermal cut-off for extra safety
  - Safety tip-over switch
  - Adjustable thermostat control
  - High quality construction
  - Tough durable finish
  - Operating switches with indication lights
  - Frost guard protection
  - Cable and plug included
  - Wrap around cable storage

# Econ Slimline Convector Heaters

Offering a slimline design with advanced digital thermostatic control, giving you one of the most cost effective and energy efficient electric heating systems available on the market today.

- Features:**
- Available in 600W-1500W models
  - High quality aluminium construction
  - LCD digitally controlled electronic thermostat
  - Temperature settings: comfort, economy, anti-frost
  - Adjustable thermostat control
  - 7 day timing programme is set using 1 hour time slots
  - 3 modes - manual, automatic & temporary manual
  - Blue LCD screen. Operating switch
  - Tamper proof heating schedule lock
  - Frost guard protection
  - Thermal uniformity
  - Remote control
  - Thermal cut-off for extra safety
  - Wall mount or free standing
  - Safe, clean and easy to operate
  - White powder coated finish
  - No maintenance required
  - All radiators are supplied with wall fixing brackets and feet
  - Supplied with 1.3m length cable

# Designer XR Electric Radiators

Stylish, electric radiators featuring a built-in, state of the art, energy management and control system based on an integrated range of technical features.

- Features:**
- Available in 500W-1500W models
  - State of the art energy management and control system
  - Electronic chrono-thermostatic control
  - Built-in energy monitoring
  - Digital programmer with 7 heating schedules, plus one bespoke option
  - Optimised energy use
  - Three temperature settings: Comfort, economy and anti-frost
  - Thermal uniformity
  - Easy to install
  - No boiler to purchase and service
  - No plumbing or expensive pipework to install
  - Lock-out feature
  - Supplied with 1.5m length cable
  - No disruption or damage to decor
