

# 15 Minute Training Module

## **Honeywell Alarms & Accessories**

THE COMPLETE SOLUTION

## General

Honeywell is a world leading provider of innovative technology for the home. The home alarm systems are designed to provide homes and families with the perfect balance of comfort, control and peace of mind.

### Peace Of Mind

- Event alerts on the control panel tell you if the alarm has been retriggered while you were out
- Preventative prompts warn you if you've left a window or door open.
- Tamper alerts shown on the control panel let you know if your alarm system has been tampered with.
- Sleep soundly safe in the knowledge that your family and home are protected at night with a home zoning mode.
- Wireless external sirens provide a visible deterrent with flashing LEDs and a loud 105dB alert in case of emergencies.

### Easy To Install

- Designed to install in less than 30 minutes.
- Optional screw-free installation for sensors with sticky pads.
- Pre-linked and ready to install straight out of the kit box.
- All fixings and batteries included, noting more to buy.

### Easy To Use

- One touch disarm with contactless tags.
- One touch arm and disarm from up to 150m away with the remote control key fob.
- One touch arm and optional PIN code disarm via keypad.

### Easy To Maintain

- Low Battery Indicators on all accessories.
- Easy open battery compartment.

### Reliability and quality

- Up to two years battery life.
- Up to 200m wireless range.
- Honeywell ActivLink delivers greater range, extended battery life and improved connection reliability.
- No false triggering.
- Two year product quality guarantee.

### Flexible and expandable

- Add up to 44 accessories or devices to your system.
- Activate and control up to three zones to suit your lifestyle and needs.
- Link any number of Honeywell doorbells for additional internal sirens.

## Alarm Kits

Honeywell provide a number of easy to install starter kits all pre-linked with the ability to easily expand.

### Home Alarm Kit

Honeywell's Home Alarm Kit provides you with a higher level of convenience, peace of mind and the complete whole-house protection you deserve. Whether you're concerned about protecting your family and possessions or need to be aware of events going on in and around your home.

Simple, well designed, and reliable, this alarm system is easy to set up and maintain. Increased stability and long battery life make it the ideal choice for protecting your family.

This Honeywell home alarm kit is built with intelligent control, an innovative keypad that comes with an intuitive design to help you operate your alarm system with ease. And thanks to Honeywell ActivLink™ wireless technology, your home alarm system can be easily linked to other Honeywell doorbells or accessories to form a totally personalised security system for your home.

### Ref: **HS351S**

## Apartment Alarm Kit

Honeywell's Apartment Alarm Kit, which are specifically designed for apartment owners. The beautifully designed yet compact keypad functions as an internal siren that controls all the sensors in your home, while providing all the protection and security you need. The wireless keypad is also packed with innovative features that give you added peace of mind. When you arm the system, preventative prompts will alert you if you've left a window or door open. Activating at home zoning mode lets you protect important entry points, while still allowing you to move around your home.

This Apartment Alarm Kit is really easy to use and can be installed in less than 30 minutes'. You can arm or disarm the system with just one touch by swiping the contactless tags against the RFID reader on the keypad. For the ultimate in convenience, you can add a wireless remote control key

fob to your alarm system, which lets you control the alarm from up to 150m away

### Ref: **HS330S**

## Accessories

Honeywell's alarm accessories are among the best on the market, marrying reliability and functionality with innovative and smart design. All of them come with a long battery life and two year product guarantees, and are ideal for anyone looking to expand their current Honeywell doorbell or alarm system in line with their growing family as well as their evolving lifestyle and needs.

Customise your Honeywell home alarm system by adding more sensors to each part of the house you want to protect. There's even a waterproof motion sensor that you can place near your garage or driveway, and a solar siren that charges itself. For extra functionality, you can also link your Honeywell doorbell to your alarm system to work as an additional internal siren.

All our accessories feature Honeywell ActivLink™ wireless technology, which delivers a wider range capability, improved battery life, and a consistent connection that's immune to signal interference, making them the most efficient and reliable products on the market.
